SO 70031

I-700 IJN Weapons Set - 127mm Twin Open Mount
and 120mm Single Mount

Shelf
Oddity

Designed by Blacman

General Remarks:

Set has been designed in 0,02mm accuracy on extremely thin bras. Etching process may decrease some dimensions and create irregularities. To obtain best results gluing "edge-to-edge" is highly recommended. Be careful when bend and correct bendings. Set contains tailored 3D parts

Set is intended to be replacement or complement for standard injection parts. During reading this manual you might see some generic photoetched, bras tubes or plastic parts which are not a subject of this set.

Complementary items:

SO70035 - IJN 203 Main Turrets Type E Set
