1/144 Hurricane Stencils

Shelf
Oddity

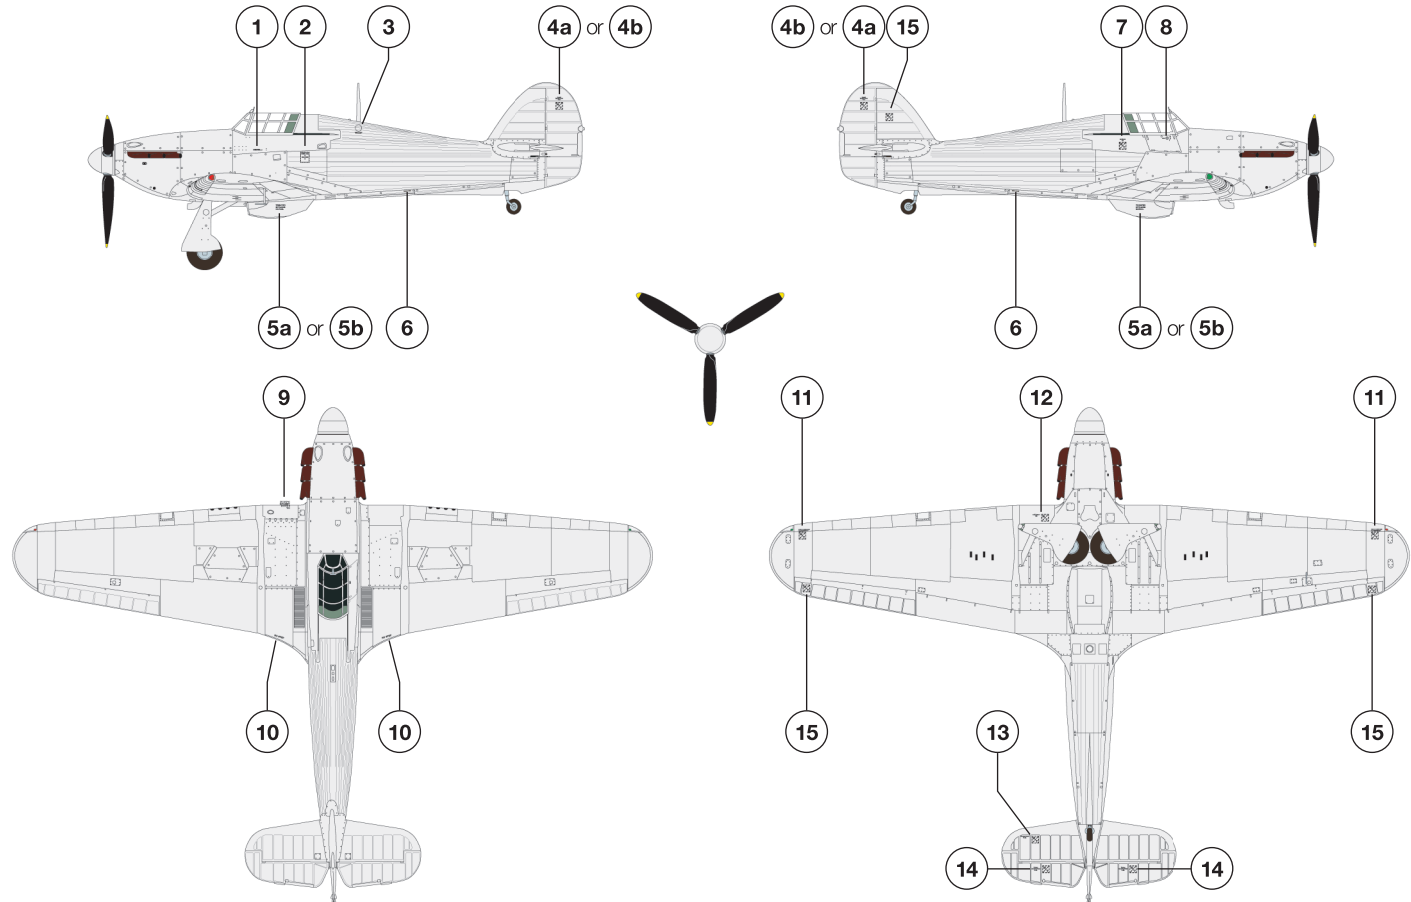

! Drawings keep 1/144 scale when printed on A4 size paper without "fit to page" option.

This decal set is recommended for Sweet kits. Decals are made using silk print technology (BOA Bodecek Agency) and feature a limited amount of transparent base around the graphics.

There are two sets of stenciling included – black set for the usual, daylight camo Hurricanes as well as Dull Red set for the night machines. Both sets are identical and include a few spare W/T squares each.

Stencils were not always applied and sometimes only some of them were visible on Hurricanes across time and among various users. Check your references please.
